Why Six Sigma?

Competitive pressure is forcing the Organizations to look for the ways and means for improving their processes so that the Quality of the products and services improve, waste reduces and customer satisfaction increases.

Improved Customer satisfaction is the goal of Six Sigma. It cannot just happen. The methodology of Six Sigma aims at integrating all processes throughout the organizations to achieve customer satisfaction and thus ensuring business growth. Six Sigma Implementation Program covers a variety of processes related to manufacturing and services including, but not limited to, distribution operations, warehousing and inventory management, hospitality, health care, electronics equipment manufacturing, electronic component manufacturing, boiler industry to printed circuit board industry, banking to the insurance business and whatnot.

Six Sigma Green Belts:

Six Sigma Methodology lays great emphasis on processes, but it recognizes people as assets. Green Belts are the team members of all improvement projects taken up within an organization. Generally, issues within function/departments are solved by the Green Belts.

Body of Knowledge (BOK):

BOK is designed to meet the minimum requirements of most of the **major** organizations from across a wide range of industries.

Program requirements:

Acquiring knowledge and demonstrating abilities to resolve the live problem using the Six Sigma approach. Participants have to undergo classwork, followed by examinations.

Target Participants:

Engineers/Managers/Executives from any functions, having any degree with working knowledge of data handling using MS EXCEL. Participants with mathematics at 10+2 level will be preferred.

Faculty: Experienced faculty from Indian Statistical Institute will handle the training sessions.

Certificate: “Six Sigma-Green Belt” certificate will be awarded on successful completion of training and passing the Qualifying examination (MCQ type).

Program Details

- Time: 9.30 am to 5.30 pm
- **Dates:** **May 08 -10 & 16-17, 2020 (5 days)**

About Indian Statistical Institute

- The Indian Statistical Institute is a quasi central organization under the Ministry of Statistics and Programme Implementation (MOSPI)
- An Act of Parliament declares it as an Institute of National Importance.
- Over the years, the Institute has grown as a multi-disciplinary organization.
- It functions as a University empowered to award degrees up to Ph.D.; as a Corporation in undertaking large scale projects; as a Firm of Consultants to industries to improve Quality, Reliability, and Efficiency and as a Meeting place

Role & Function of SQC & OR Division

- The pioneer and leader in blending statistical theory with practice and Institutionalizing the continuous improvement process into a sustainable system.
- To strengthen the national economy through a continual search for excellence in Quality.
- To disseminate the basic concepts and techniques for Quality Improvement by organizing Training programs, Workshops, and In-house programs.
- To develop highly skilled professionals capable of self-actualization.
- To help industries in their efforts to cope up with the growing challenge of global competition through implementation of a quality system based on ISO-9000 series, ISO-14000, QS-9000 standards, Six Sigma & WCM.
- To continually develop and improve methodologies through applied research efforts to attain International Standards in services provided.
- To provide solutions to the problems on the entire gamut of complex Business Decision Processes with the aid of SQC & OR.
