## Why should I attend this program?

The objective of this program is to disseminate the knowledge of Six Sigma methodology among the participants so that they can

- Identify **quality problems** in various manufacturing and service processes within their organization.
- They can link the quality problems to the specific process, products (or services), and people.
- They can recognize **critical to quality characteristics (CTQ)** in various quality-related problems.
- Participants can apply the **DMAIC approach** of Six Sigma methodology for their process improvement projects.
- Participants can perform various **graphical and statistical analysis** of the process data to extract valuable and actionable information.
- They can **interpret** various statistical measures of the data.
- They can use readily available statistical packages like **R-studio** and **MS Excel** for data analysis.
- Participants will be aware of the unique features of popular **commercial software** used in six sigma implementations.
- Finally, the participants will be knowledgeable for identifying and carry out **real-life process improvement projects**, which will significantly improve the bottom line of their organization.

## About this Program:

SQC & OR Unit, Mumbai offers this “**On-line Classroom**” type training and certification program through a virtual platform. All the training sessions, and examinations will be through on-line. **For registration**, participants need to download or type the attached nomination form and send it to [sqcbombay@gmail.com](mailto:sqcbombay@gmail.com) after filled-in. The **soft copy of the training material** (*in pdf*) and **data set** (for class exercises) will be shared through a virtual drive. The participants should download the training material and the data set from the drive before attending the classes. The training sessions will primarily use **Minitab** and **MS Excel** for data analysis. Participants either may purchase the **Minitab license**, or they may download its **trial version**. For any doubt clarification, participants may communicate with the faculties on weekdays during the training weeks through a phone call or video chat, or they may personally visit **SQC & OR Unit, Mumbai**, with a prior appointment with the faculties.

## **About the On-line sessions:**

The program will use **Microsoft Teams** as its on-line platform. Participants must **sign up** in Microsoft Teams (<https://www.microsoft.com/en-in/microsoft-365/microsoft-teams/group-chat-software>) **with the e-mail id they will mention in their nomination form**. Participants may watch the following YouTube videos to know how to create a new Microsoft Teams account and attend a Microsoft Team session.

## **Target Participants:**

Engineers/Managers/Executives from any functions, preferably having an Engineering/Science or Commerce background with basic knowledge of MS excel, can join in this program.

## **Faculties:**

Experienced faculties from Indian Statistical Institute will be associated with the training session.

## **Examination :**

Participants has to appear in a two hours **on-line tests** with **multiple-choice questions** (MCQ type) on **09 May, 2021 (Sunday) during 7:30 p.m.-9:30 p.m.** They must score a **minimum of 60% marks** to pass the tests. Unsuccessful candidates have to appear in a **repeat test** within next 10 days, however they need not have to pay anything extra for it.

## **Certification:**

For the “**Six Sigma-Green Belt**” certification, participants must 1) attend all the training sessions and 2) pass the Qualifying tests (MCQ type). However, participants are encouraged to carry out real-life projects using the six sigma approach. This is an **optional criterion** for GB Certification, a participant **may or may not** opt for it. Interested participants should inform ISI and need to get the project from their parent organization where he/she is currently working. Indian Statistical Institute **will not provide any project**. However, they will assist in carrying out the project free of cost. The

participant must submit the soft copy of the complete project report within six months from the last date of the training. After the successful completion of the project, a six-**sigma green belt certificate** will be issued **with the project name**. Otherwise, the certificate will be issued **without any project name**.
